There are only a few Iranian cheetahs alive now. c. If people don't take care of the Iranian cheetahs, they will be very safe	۱۳
۳	متن زیر را با دقت بخوانید و به سوالات داده شده با دقت پاسخ دهید. The Persian onager is a type of wild horse that lives in the deserts of Iran. It is sometimes called the Persian zebra because it has a brown coat with a dark stripe down its back. Onagers are very fast runners and can run very quickly to escape from danger. Onagers are herbivores, which means they eat plants. They like to eat grass, leaves, and flowers. They can go for a long time without drinking water because they get most of the water they need from the plants they eat. The Persian onager is an endangered animal. This means there are not many of them left in the world. People are working hard to protect them so they do not disappear. We can help by learning about these amazing animals and supporting organizations that help protect them. <u>True/False</u> 47) Persian onagers are also known as Persian zebras due to their distinctive brown coat with a dark stripe. True False 48) Onagers are carnivores, meaning they primarily eat meat. True False <u>Choose the best answer</u> 49) What is the main reason onagers can survive for long periods without drinking water? a. They store water in their humps. b. They get most of their water from the plants they eat. c. They have specialized glands that produce water. 50) Why are Persian onagers considered endangered? a. They have no natural predators. b. They are not able to reproduce quickly. c. Their habitat is being destroyed. <u>Write complete answer.</u> 51) How do Persian onagers get most of their water? 	۱۴

		متن زیر را با دقت بخوانید و به سوالات داده شده با دقت پاسخ دهید.																		
		The Nile River is the longest river in the whole world! It flows through a big part of Africa. The ancient Egyptians, who lived a very long time ago, depended on the Nile for everything. The Nile River was like a giant highway. People used boats to travel on it. It also gave them water to drink and water their plants. Every year, the Nile River would flood. This flooding left behind rich soil, which helped the Egyptians grow lots of food. The Nile River was very important to the ancient Egyptians. It helped them survive and build a great civilization.																		
		<u>True/False</u>																		
		52) The Nile River is the shortest river in the world.		True False																
		53) The Nile River helped the ancient Egyptians grow food.		True False																
۳	<u>Choose the best answer</u>			۱۵

		In Lorestan, there is a beautiful lake surrounded by hills. The people who live there are very kind. Lorestan is widely known in Iran for the kindness of its people. Every summer, many girls enter a fishing contest. They each have a ticket to enter. Everyone is excited when the sun comes up, and it feels like a friendly competition. Sometimes they don't catch many fish, but they still have fun and enjoy being together.
