But we are all trying to ...50..... endangered animals and plants. The first group is going to make some notes to have people's attention to wildlife. We'll show them how51..... it is to do something about it. The second group will try to help clean the environment. They'll52..... the trash like plastic bags and bottles to keep nature safe and clean. Hopefully, we'll have a green earth for us and for all other living things in the near53.....

M.Read the passage and answer the questions (4)

(ز) متن را بخوانید و به سوالات داده شده جواب دهید. (4)

Heart is a strong pump that sends the blood around your body. It works all the time, even when you are sleeping. It pumps blood that is full of oxygen and food to every part of your body. You have blood everywhere inside your body. A blood sample is usually 45% blood cells and 55% plasma. The blood cells move in a yellow liquid. The liquid is called plasma. It carries blood cells. Types of blood cells are red blood cells and white blood cells. Red blood cells give the blood its color. There are 5 million of them in a drop of blood. Red blood cells are so small that you cannot see them with your eyes. You can see them with a microscope. The red blood cells carry oxygen to every part of your body . White blood cells are larger than red ones, but there are less of them. There are 8000 white blood cells in one drop of blood. They defend your body against microbes.

4pts.

54- You can not see red blood cells without microscope. **a-true b-false**

55-The blood is red because of red blood cells. **a- true b-false**

56-What carries oxygen around the body ?

57-How many white blood cells are there in a drop of blood?

58-What is the job of white blood cells?

N: Read the passage and answer the questions.(4)

(س) متن را بخوانید و به سوالات داده شده پاسخ دهید.

Earth is the planet we live on. It is the fifth largest planet and the third planet from the Sun with only Mercury and Venus being closer. It is the only planet known to have life on it. It is one of four rocky planets inside the Solar System. The other three are Mercury, Venus and Mars. It is the largest of the rocky planets moving around the sun by size. It is much smaller than Jupiter. Earth is the only planet in our solar system that has a large amount of liquid water. About 71% of the surface of Earth is covered by oceans. No other planet has oceans, other life forms, and enough oxygen . Because we have so much water, Earth is called the Blue Planet. Because of its water, Earth is home to millions of species of plants and animals.

4pts

59. Why is the earth called the blue planet?

60. Which planets are rocky?

61- How much of the Earth surface is water?

62. There is life on other planets. T / F

63. Earth is bigger than Jupiter. T / F

40pts.

GOOD LUCK
