There are many things you can do to have a healthy life. Many people know that eating healthy food and exercising are two of them. Something else people can do is to spend time outside, in nature. Doing these simple things can help you to have a better life now and will help you to live longer and happier in the future.

One of the best things you can do for your body is doing exercise. People exercise to keep healthy. They also exercise to lose weight. Doing exercise can be fun and can make you feel good. But how much is enough? Some people think that doing simple things like cleaning the house are helpful and enough. Other people do heavy exercise every day such as running or swimming. One thing scientists agree on is that any kind of exercise is good for you.

Having a healthy diet can help improve people's health condition. You should eat foods like fresh fruits and vegetables several times each day. Eating foods with a lot of sugar, salt and fat is harmful for your body. Try not to eat junk food such as candy, potato chips, and soda. They are not good for your health because they contain high amounts of fat or sugar.

Being outside has positive effects on human health. Spending time outside can also help decrease the chance of gaining weight. People are inactive inside. But when people are outside they are active. This activity can help control weight. **It** also decreases stress.

To learn a foreign language well, there are four important skills that we must develop. The first skill is listening, which means being able to understand the language when we hear it. The second skill is speaking, where we practice saying the language correctly. The third skill is reading, and the final one is writing. It is important to be able to form sentences properly in writing. There is no shortcut to become fluent in a language. While having a strong memory can help, simply memorizing grammar rules or vocabulary lists is not enough. The best way to learn a language is by practicing it in real situations, using it in conversations and activities.

❖ **True/ False (1)**

48. Listening is the last skill you need to develop when learning a foreign language.

a) True

b) False
